

Amendments to the Specification:

Please replace the equation on page 6, line 10 of the specification with the following amended paragraph:

$$-- \underline{b-d} = \frac{120k - 40k}{1000k} \cdot 0.8 + \frac{40k}{1000k} = (64 + 40)m \text{ sec} = 104m \text{ sec} --$$

Please replace the equation on page 9, line 13 of the amended specification with the following amended paragraph:

$$-- \underline{b-d} = \frac{40000 - 40000}{1000} \cdot 0.8 + \frac{40000}{1000} = 0 + 40 = 40m \text{ sec} ; --$$

Please replace the equation on page 10, line 11 of the amended specification with the following amended paragraph:

$$-- \underline{b-d} = \frac{26k - 8k}{1000k} \cdot 0.8 + \frac{8k}{1000k} = (18 \cdot 0.8 + 8)m \text{ sec} = 23m \text{ sec} ; --$$
